*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Titbox.in, United States, 2015. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.New product development using open source hardware (OSH) is becoming very popular and is expected to increase exponentially due to many reasons. However, developers are mostly adapting the traditional product development and then adjusting it based on their practical experience on the job. Traditional product development process does not fit well for OSH approach and hence an appropriate process needs to be established, that makes product development with OSH approach easy, effective and fun experience. The author has done extensive research on the nature of OSH, informal practices followed by current OSH developers, experiences shared in forums and blogs, and then used his own experience in process improvements, innovation, new idea generation, project management etc. to come up with a structured process for product development using open source hardware approach. One of the reasons for recent increase in usage of OSH approach is due to OSH component developers extra effort in making OSH simple, easy and fun experience. In line with this trend the author has tried to keep the process simple, easy to follow and brief. The author also wants to encourage more and more people to take up product development using OSH approach, and hence has included interesting topics like basic concepts of OSH and why it is required, comparison to traditional product development process, interesting case study etc. By referring to these chapters, not only OSH developers will benefit, but other readers will also be encouraged to take up OSH full/part time and also appreciate the work done by contributors to OSH. Hence the author wishes to have a large readership base, through which he can build a large pool of innovators, developers, students, OSH...
