Have you ever been following an analysis approach that by all accounts seemed to be the best fit for the effort at hand, yet something wasnt working As a business analyst, you have many things to consider, analyze, plan for, and manage--not only the business problem and analysis approach but also the stakeholders, communications, relationships, personalities, skill sets, preferences, history, team dynamics, and organizational culture. At the center, you are playing an interactive role with all of these factors and participants. For any particular situation, you should ask yourself, What are the unique human dynamics in this situation, and how can I work with these dynamics to be most successful as a business analyst This book provides you with interpersonal tips and techniques from the business analysis trenches, emerging from real-world successes, observations...
