Whether it's coming up hard against the speed of light and, with it, the enormity of the universe, realising that terraforming a distant world is harder and more dangerous than you'd ever thought, or simply realizing that a hitchhiker on a starship consumes fuel and oxygen with tragic results, this exciting and innovative science-fiction anthology collects together stories by some of the biggest names in the field including Stephen Baxter, Charles Stross and Greg Bear. The universe shifts and changes: suddenly you understand, you get it, and are filled with a sense of wonder.
